

MARINE BEARINGS TRUSTED BY OVER 40 NAVIES & COAST GUARDS WORLDWIDE

SEAWATER LUBRICATED PROPELLER SHAFT BEARINGS FOR BOTH BLUE AND DIRTY WATER ENVIRONMENTS

- Ensure asset availability with long wearlife & bearing reliability
- Lowest through-life costs of any bearing on the market
- Ease of replacement - replace bearings without shaft withdrawal or bearing carrier removal
- Proven low acoustic signature
- Reduced break away torque
- Non-catastrophic failure
- Turnkey engineering and installation support
- Fitted to over 2,000 ships worldwide

SeaThigor MECHANICAL FACE SEAL

- Manufactured for the life of the ship's service with little to no maintenance costs, there are no spare parts required
- Emergency seal offers safe return to port capability
- No maintenance required when the vessel drydocks
- Quality and reliability, no visible leakage
- SeaThigor seal is outside pressurized and balanced for deeper draft

GREASE FREE RUDDER BEARINGS

- Grease-free operation in wet or dry environments
- High abrasion resistance
- Superior resistance to shock loading and vibration
- Simple to machine – no nuisance dust!
- Installation is fast and easy
- One-seventh the weight of bronze
- Fitted to over 4,000 ships worldwide

GREASE FREE DECK EQUIPMENT BEARINGS

(Fairlead bushings, Davit bearings, replacement for any greased bronze bearings)

- Ensure Crew Safety: Eliminate grease on deck
- Stable operation at pressures up to 45MPa (6527 psi)
- Long wear equals reduced maintenance costs
- One-seventh the weight of bronze

Thordon Bearings Inc. designs and manufactures a complete range of environmentally friendly propeller shaft, rudder, deck equipment and shaftline products for the global marine market. Recognized internationally for superior performance in marine applications, Thordon has a worldwide customer service network in over 100 countries.
